CS202L
## Lab 6 Programming Assignment
Lab Date: 03/10/2018

6.1 A class diagram of "Railway Station Management" is given below (already covered in the last lab).
Here the concept of Inheritance is introduced.

1. Code the above class diagram & Instantiate the Objects for task 2.
2. Print the train detail on a particular platform of the railway station. [train number, type, engine type, engine details, detail of each coach.] You are free to add attributes, methods as per the need.
